POWERED BY
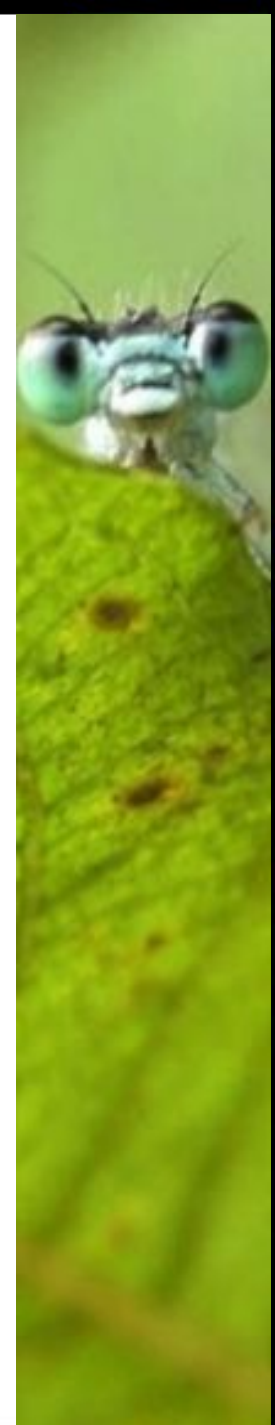

ATLASOfLIVING
AUSTRALIA

Intent / Scope (1)

=> Develop a Living Atlas Community of Practice (CoP)

- Support sustainable implementation and development of the Living Atlas platform through an open-source shared model;

- Increase level of shared development and resource sharing;

- Develop a shared roadmap and vision for the Living Atlas platform;

POWERED BY

ATLAS OF LIVING AUSTRALIA

Intent / Scope (2)

- Develop and maintain training, documentation and support services;

- Establish mechanisms to assist individual countries in the adoption of Living Atlas (such as self-help; technical documentation and communication materials)

- Develop a governance model that is acceptable to the current Living Atlases community;

POWERED BY

ATLASofLIVING
AUSTRALIA

Responsibilities / Functions (1)

- Set direction and strategy for the Living Atlas Platform

- Set direction and priorities for the Living Atlas Coordinator Position

- Liaise with GBIF secretariat and other GBIF Nodes

- Advocate and promote benefits of the Living Atlas software and community, namely on the Research Infrastructures Landscape on Environment

- Engagement and community development activities including workshops and conferences.
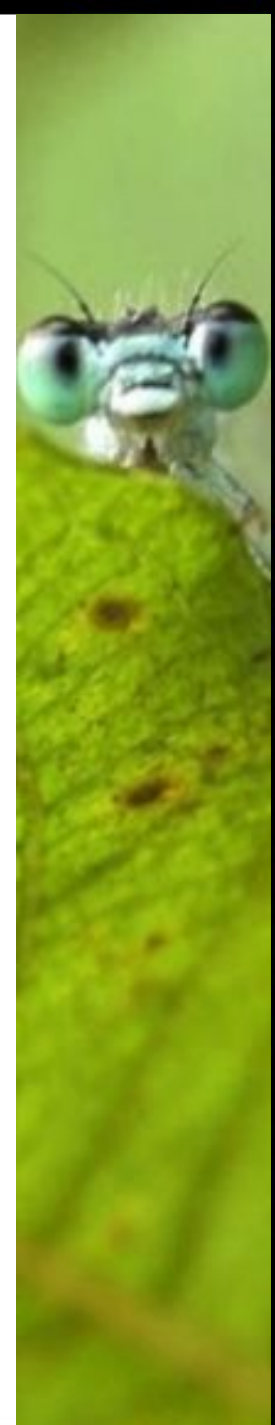

POWERED BY
ATLAS OF LIVING AUSTRALIA

Responsibilities / Functions (2)

- Vote on acceptance of newcomers onto the Management Committee

- Discuss and, wherever possible, manage general issues from the nodes.

- Produce recommendations and (wish list) priorities

- Forecast and develop roadmaps

- Foster an environment that encourages feedback of code into core Living Atlas code base

POWERED BY
ATLASOF**LIVING**
AUSTRALIA

Responsibilities / Functions (3)

- Foster the Community of Practice for collaborative development

- Look for opportunities to secure stable funding for ongoing collaborative work

- Identify and maintain communication channels with the community

- Identify training needs to the Management Committee
