

## Session 1

The role of GBIF in the CBD  
The regional perspective in the CBD  
Review pre training materials (exercises, etc.) questions,  
Q & A session  
Presentations of cases where the connection CBD-GBIF is working  
The concept of workflows

## Session 2

On the basis of :  
pre training exercise 1  
pre training country cases presentations  
Practical part of the session  
split-groups  
cases

**Target 13:** 1. *Incentivar que quede una cláusula de que se publique las secuencias digitales con el track de donde viene el acceso y además el CBD da un certificado internacionalmente reconocido cuando se completa el proceso de acceso.*

<https://absch.cbd.int/en/search?schema=absPermit currentPage=1>  
(Colombia).

- *Ejemplo: Uso de información genética de país a país (Quantitative monitoring of nucleotide sequence data from genetic resources in context of their citation in the scientific literature)*  
<https://www.biorxiv.org/content/10.1101/2021.05.10.443393v2.full.pdf>
- *WiLDSI: Science-based approaches for Digital Sequence Information*  
<https://apex.ipk-gatersleben.de/apex/wildsi/r/wildsi/1>

**Target 8:** *Piloto de publicar en gbif una lista temática de especies vulnerables y sus vulnerabilidades como ejemplo de contribución de gbif a este indicador (Uruguay)*

**Meta 12:** *Piloto con LifeWatch (especies en zonas urbanas, distinguiendo exóticas).*

questions + Menti

Process: Recommendations > pre training where each node/country is  
>> Menti / discussion >> conclusions

## Session 3: Communication

input: Tim's presentation at Sevilla  
Role play  
To explain the relevance of GBIF for developing the Framework indicators

## Session 4

“Data products”  
working on specific indicators

-----

Pre training materials- exercises

1. CBD in your country exercise
  - People. Who are the focal points in your country? Where to find Country Profiles <https://www.cbd.int/countries/> ?
  - Strategies reports: Is your country updating its NBSAP? If so, what is the state of the process? Who is coordinating it? How could you engage in the process?
    - >articulate in questions
    - identificar
1. Watch Video:
  - a. What the CBD is
    - i. <https://www.youtube.com/user/chmcbd>
    - ii. <https://www.cbd.int/convention/guide/?id=web>
    - iii.
  - b. What is the connection CBD-GBIF
  - c. Global Biodiversity Framework Kunming-Montreal
2. Pre training presentations for session 2: Country examples  
(aiming to 1 presentation per region: 6 presentation)

Country	Theme
Colombia	National Strategies
Guatemala	
Irlanda	
Mexico	
Belgium	
South Africa	
Australia	
ACB	

All themes (potentially) for each country or region?

Themes

1. National Strategies
2. National Reports
3. National regulations

#### 4. Technical Instruments or Documents, or analysis for policy makers

#### Others actions

Report to the NODES Chair

Melisa & Paco

Webinar/Wokshop en el marco del Proyecto GEF que aporta recursos a los países de ALC para la actualización de las Estrategias Nacionales de Biodiversidad para también comunicar cómo GBIF y los Nodos pueden contribuir a los procesos de elaboración de Estrategias e Informes Nacionales (Melisa & Ana Laura)

#### Training module

NB from Tim H in consultation with Melianie:

For the preparatory video, the presentation can be in other languages with subtitles.

The live training will be in English, but for breakout discussions we can organize language groups with mentors in say English, Spanish and French

Primary biodiversity data and the Post-2020 Global Biodiversity Framework
